   - Customize the subject for the final Signature Completed emails

Sentiment Analysis of Comments

The overall sentiment of the comments is neutral to slightly positive. Most comments:

- Express thanks for submitting the idea
- Provide additional context or details about the use case
- Note that the idea will be taken into consideration for future updates

There are no obviously negative or toxic comments in the dataset.

Notable Patterns and Insights

- Many ideas relate to providing a more seamless, integrated signing experience, especially for signers
- Admins and users want more options to customize the emails, notifications and UI to fit their specific business needs
- There are multiple requests to support additional field types for write-back, like formulas, encrypted fields, and more
- Some ideas highlight the desire for parity with competitors like DocuSign and Adobe Sign
- Requests tend to cluster around a handful of popular themes rather than a long tail of totally unique ideas
